

I'd Like to Take You Home

The Rascals

I'd like to take you home and make you happy for the rest of your life, I tell
I'd like to take you home so we both can live as man and wife
And if you'd think for a minute of life with me in it
That would really be fine
I'll tell you right now, that's how it's gotta be.

I'd like to take you home so we can raise a little family, I tell
A boy for you and maybe have a girl or two for me
And if sometimes there's a squarrel, we'll solve it tomorrow
Cause life's much too short without love, mm mm
I'll tell you right now, that's how it's gotta be.

We could be happy just havin' each other, knowin' our love's meant to be
And as the years bring our joys and our sorrows, love will grow stronger you'll see.

Cause a man and a woman is springtime in blossom
And love of my life I need you, mm mm
That's how it's gonna be.

I'd like to take you home (really like to take you home)
I'd like to take you home (really like to take you home)
I'd like to take you home (really like to take you home)
I'd like to take you home (really like to take you home).
