

This is love, this is love, this is love I feel  
In my heart, in my soul, and I know it's real  
It's a love, it's a love, it's a love I feel  
It's pure and real

If you look in your heart you will surely see  
Of a peaceful and tranquil harmony  
If you want in your heart to be really free  
The light will shine on you

You should see how it feels, yeah (see how it feels)  
Walking down the flowered street  
All the colors melting softly at my feet (you should see how it  
feels, yeah)  
Seems to me that everywhere  
There's a glow of life that makes the air smell sweet

This is love, this is love, this is love I feel  
In my heart, in my soul, and I know it's real  
It's a love, it's a love, it's a love I feel  
It's pure and real

There's a gift that's for all if you understand  
Just relax and think of a perfect man  
Deep within everyone is a love supreme  
Close your eyes and see

You should see how it feels, yeah  
Flowing as a breath of air  
To cross the pasture meadows in the sky (see how it feels)  
Watch the sun rise up and flare  
Causing joy within my heart and in my eyes (you should see how  
it feels, yeah)  
Bluebirds, sign of happiness  
The dove of love keeps circling high above

This is love, this is love, this is love I feel  
In my heart, in my soul, and I know it's real  
It's a love, it's a love, it's a love I feel  
Oh, love...
