It Was You

The Red Jumpsuit Apparatus

Hiding away for years to come
To having bullets but no gun
This song is not for everyone
And I failed once before
Yes I failed twice before
But someone caught my fall

It was you, oh
It was you, oh
Memories take your time
I needed someone by my side
It was you, oh

Things not always as they seem
But I have nothing up my sleeves
Maybe that's why I will succeed
Cause I failed once before
Yes I failed twice before
But someone caught my fall

It was you, oh
It was you, oh
Memories take your time
I needed someone by my side
It was you, oh

Cause I failed once before
Yes I failed twice before
But someone caught my fall

It was you, oh
It was you, oh
Memories take your time
I needed someone by my side
It was you, oh

It was you
