

The Right Direction

The Red Jumpsuit Apparatus

You said life wasn't good enough
So you sold your soul
Traded it for another one
That you can't control

I will never understand the path you chose
Chemical parasitic waste inside your bowels
So wrap it up while you still can
While you got the offer in

I just can't believe
That you'd throw it all away
Now you falsely return today
As you're falling on your face

It's an epidemic, it's worldwide
You cannot alter it, you cannot hide
I pointed walls too many times
So don't try to fake surprise

I will never understand the path you chose
Chemical parasitic waste inside your bowels
So wrap it up while you still can
While you got the offer in

I just can't believe
That you'd throw it all away
Now you falsely return today
As you're falling on your face

You better get headed in the right direction (4x)

I just can't believe
That you'd throw it all away
Now you falsely return today
As you're falling on your face
