

# The Way She Smiles

The Rembrandts

Seems these days, everybody's lost their way  
There are battles to be won - There are islands in the sun  
And I'm no better - I'm a little boy who's lost  
Asking how much does that cost  
Living life down to the letter

When it's the way she smiles that I remember  
And the way she lifted up my dreary day  
I've forgotten when or where  
And the color of her hair  
But it's the way she smiles, that I remember

And time moves on, like a road that never ends  
With all its bumps and all its bends  
Come one day, I'll be arriving  
And when I do, I hope that you remember me  
And the way we used to be  
In that moment we were flying

It's the way she smiles that I remember  
And the way she lifted up my dreary day  
I've forgotten when or where  
And the color of her hair  
But it's the way she smiles, that I remember

I feel you... washing over me  
And I'm smiling from the days that I recall

I've forgotten where or when  
And the state that I was in  
It's the way she smiles that I'll remember
