

Exterminate

The Restarts

Breakdown of freedom war in the wind
New world orderly genocide the bloodshed begins
Terror tactics rape policy the old nightmare is
Here today you can watch it on your TV

Exterminate - lets watch the people bleeding
Exterminate - another engineered war
Exterminate - race hatred is in season
Exterminate - your credits against the law

Turn your heads away from the holocaust
Don't think it will happen again
Hitler wasn't the last
The world idly watches the mass bloody slaughter
How would you feel if a soldier raped your daughter
