

Just Gets Worse

The Restarts

Violence breeds - so does poverty
Tribalism - gang reality
Private estates - closed to you and me
What the fuck next - don't wanna wait and see

Every city - ghettoisation
Every fuckin place - class segregation
So this is it - civilisation
New order now - Global ordination

All the rumours - of conspiracy
Blind media - spreading apathy
When you cant believe - what you see and read
Don't give me that - bullshit democracy
