

# Mindless Violence

## The Restarts

Human temper devoid of logic  
Unfocused anger defeats the object  
It permeates every walk of life  
From western culture to middle east strife  
Theres only one more heinous crime  
The glorification of violence sublime  
The fundamental root of the cause  
Human nature permanently flawed

Eliminate mindless violence

Your in the humour coz its friday night  
But something tells me you just like to FIGHT  
Your violence addiction is fucking obscene  
Makes no difference who you make bleed  
Dealing with issues when you're pissed  
You do your talking with your fists  
Your seeing red just like the other side  
Dr. Jekyll and Mr. Hyde

I saw you kick a man in the head til he bled  
Adrenaline was pumping you left him for dead  
Kubriks classic misunderstood  
Or reenacting Boys N the hood  
Counteractive macho violence,  
Guilt personified by your silence  
Banging on about respect and pride  
But to all and sunder you've denied  
It ain't about being a pacifist  
But a show of respect to co exist  
Deny the value of human life  
Brought to an end from a switchblade knife
