

Wake Up

The Restarts

Force-fed what to think and see through newspapers and on TV
Your politics and religion are brainwashing society
Your censorship and education are designed to control our minds
Don't ever let someone decide for you what is wrong and what's right

Wake up - And stop this useless hypocrisy
Wake up - And start fighting the real enemy

Your preachings and condemnations on what we're supposed to be
Is contradicting the ideal of individuality
You're boxed in and restricted by rules you yourself create
Take a close look there ain't much difference from a system you
so much hate
