

Descent Into Hell

The Retrosic

Great bright heaven is out of reach
If you don't follow what they have taught

I can't believe these things they tell
I can't believe the lies they sell

Heaven is a far place from here
Hell is around the corner
But not to fear

I am far from nowhere
I am already here
I do not want to disappear

Heaven is a far place from here
Hell is around the corner
But not to fear

I am far from heaven
I am already here
I do not want to disappear

The little creatures, the abused bodies
They all are deepened in their studies
They are searching for hollow answers
And all they find, are mankind's cancers

I seal my wings
I don't shed a tear
'Cause there is nothing
I have to fear

My descent into hell
