

Destination Venus

The Rezillos

Destination Venus more than darkness lies between us
Twenty million miles of bleakness - human weakness
Holding my receiver I can feel you coming nearer
Probing through the airwaves clearer - clearer clearer

Destination Venus - My heart was never slow
Destination Venus - Where you are I'll always go
I hear your voice on the radio

Further modulation of the frequency rotation
Triggered waveband activation - near elation
Somewhere in the distance I could hear a voice one instance
Then it faded from existence - no persistence

Destination Venus - My heart was never slow
Destination Venus - Where you are I'll always go
I hear your voice on the radio

Destination Venus only darkness lies between us
Twenty million miles of bleakness - human weakness
Holding your receiver can you feel me coming nearer
Probing through the airwaves clearer - clearer clearer

Destination Venus - My heart was never slow
Destination Venus - Where you are I'll always go
I hear your voice on the radio
Destination Venus - My heart was never slow
Destination Venus - Where you are I'll always go
I hear your voice on the radio
I hear your voice on the radio
I hear your voice on the radio
I hear your voice on the radio
I hear your voice on the radio
Keep coming through on the radio etc.
