

Where Love Goes

The Robot Ate Me

Things started right
But you never know
Where your love will go.
Will you live with me,
Lay close to me,
And be all I need?

Is there something more
We haven't looked for,
Or is this everything?
Will you hold me up,
Watch me sleep at night,
Be my reason to live?
Are we lonely here,
Or is there someone there
Waiting for us?

Things started right,
But you never know
Where your love will go.
Will you stay with me
If I have nothing more...to give?
Will you stay with me
If I have nothing more...to give?
