High and Dry

The Rolling Stones

High and dry well, I'm up here with no warning High and dry well, I couldn't get a word in High and dry oh, what a way to go She left me standing here just high and dry

A minute I was up there standing by her side The next I was down there, well, left out of the ride and High and dry oh, what a way to go She left me standing here just high and dry

Anythin' I wished for I only had to ask her (yep) I think she found out it was money I was after High and dry oh, what a weird letdown She left me standing here just high and dry Alright

It's lucky that I didn't have any love towards her Next time I'll make sure that the girl'll be much poorer High and dry oh, what a way to go She left me standing here just high and dry

High and dry well, I'm up here with no warnin'
Yep
