

# If You Need Me

The Rolling Stones

If you need me  
Why don't you call me  
Said if you need me  
Why don't you call me  
Don't wait too long  
When things go wrong  
I'll be there, yeah  
Where I belong

Said if you want me  
Why don't you send for me  
Said if you want, want, want  
All you gotta do is send for me  
Don't wait too long  
Just a pick up your phone  
I'll be there  
Right there, where I belong

People always told me, darling  
That you didn't mean me no good  
But I know deep down in my heart  
I done the best I could  
And one of these days, darling  
It won't be long  
You're gonna come walking through that door  
And I know in my mind these are the very  
Words you're gonna say to me

I still love you  
Always thinking of you  
I still love, love, love  
Always thinking of you  
Don't wait too long  
When things go wrong  
I'll be there, right there  
Where I belong
