

# Let's Be Natural

## The Rutles

Time goes by, as we all know, naturally  
People come and people go, naturally

Let's be natural, ever since the world began  
Let's be natural, every woman, every man  
Let's be natural, as part of nature's plan  
Let's be natural, oh yeah

Stars are in the sky above, naturally  
People rise and fall in love, naturally

Let's be natural, ever since the world began  
Let's be natural, every woman, every man  
Let's be natural, as part of nature's plan  
Let's be natural, oh yeah

Ev'rything is ev'rything, naturally  
Yeah, people cry, laugh and sing, naturally

Let's be natural, ever since the world began  
Let's be natural, every woman, every man  
Let's be natural, as part of nature's plan  
Let's be natural, oh yeah

People be so natural, people be so natural, people be so natura  
l  
People be so natural, people be so natural, people be so natura  
l  
People be so natural, people be so natural, people be so natura  
l
