

# Demolition Dancing

The Ruts

Something's gonna happen  
Well that's for sure  
We're gonna watch from the window  
Gonna stand at the door

With the twist and shout through a broken store  
But you (?) yourself right into the floor  
I'm demolition dancing and it feels all right  
And I'm (?) 'til the feeling's right

Dancing dancing into the wall

Safety helmets  
And bootstraps on  
Well I can't stop dancing  
Well the feeling's so strong

Gettin' all the people moving to the jive  
Everybody's (?)  
Demolition dancing and it feels so good  
Demolition dancing 'til it brings down wood

Demolition dancing into the wall  
Everybody's going to the demolition ball  
Demolition dancing into the town  
Don't need a (?) for the demolition sound

Dancing dancing into the wall

Don't stop dancing  
When the ceiling comes down  
Well if you're dancing on rubber  
(?)

Well we're demolition dancing to the demolition beat  
The whole world's crumbling under my feet  
Anything can happen when the music gets loud  
Anything can happen with the demolition crowd
