

Out of Order

The Ruts

You better calm down, said you better cool down
You're burning white hot, you're over the top
You're out for some action, some vital attracttion
You're one of the boys, go play with your toys

You're out of order
You're standing on the border
You're out of order
You're standing on the border

You better calm down, said you better cool down
You're burning white hot, you're over the top
Your life is in danger, you're still just a stranger
You're one of the boys, go play with your toys

You're out of order
You're standing on the border
You're out of order
You're standing on the border

You're out of order
You're standing on the border
You're out of order
You're standing on the border

You better calm down, said you better cool down
You're burning white hot, you're over the top
You're out for some action, some vital attracttion
You're one of the boys, go play with your toys

You're out of order
You're standing on the border
You're out of order
You're standing on the border
You're out of order
You're standing on the border
You're out of order
You're standing on the border
You're out of order
You're standing on the border
You're out of order
You're standing on the border
