It's taking all of, it's taking all of me To fight when I can't breathe, yeah It's taking all of, it's taking all of me

I've been running through this city with my hopes held high In between my footsteps, that's where fear resides It's tearing me apart, I swear I might divide Mi-mi-might divide 'cause all this time it's

Me up against the wall
But I keep standing tall
Make it or break it, I face it
The winner takes it all

Me up against the mirror Reflecting all my fears Make it or break it, I face it Until they disappear

It's taking all of, it's taking all of me
To fight when I can't breathe, yeah
It's taking all of, it's taking all of me
To be more than my dreams
I don't need a miracle
When life gets critical
Just keep on pushing my limits, it's only physical
It's taking all of, it's taking all of me

I've been trying to break the wheels off of this machine But pressure's always trying to get the best of me My doubts are overhead like vultures trying to feed Try-try-trying to feed but they won't succeed if

I'm up against the wall
But I keep standing tall
Make it or break it, I face it
The winner takes it all

I'm up against the mirror Reflecting all my fears Make it or break it, I face it Until they disappear

It's taking all of, it's taking all of me
To fight when I can't breathe, yeah
It's taking all of, it's taking all of me
To be more than my dreams
I don't need a miracle
When life gets critical
Just keep on pushing my limits, it's only physical
It's taking all of, it's taking all of me

It's taking all of me
It's taking all of me
