

Breakout

The Score

Trying to make it through the darkness
In a world that's heartless
This place is taking all of me

I need to learn to flip the pages
Running through these mazes
The road is getting hard to see

Is it too much to ask for to know what I'm fighting for?

Tired living like I'm faceless
I was made for greatness
Now it's time that I believe

Cause all I want is to, want is to breakout
Want is to, want is to
Want is to, want is to
Want is to, want is to

Counting up the days I'm wasting
Trying to find my place in
The madness here that we call life

I need to find a way to silence
All I hear is violence
A battlefield inside my mind

Is it too much to ask for to know what I'm fighting for?

Tired living like I'm faceless
I was made for greatness
Now it's time that I believe

Cause all I want is to, want is to breakout
Want is to, want is to
Want is to, want is to
Want is to, want is to

I've been dying to know how
My voice sounds when I scream out
So I scream out

Cause all I want is to, want is to breakout
Want is to, want is to
Want is to, want is to
Want is to, want is to
