

# Can You Hear Me Now

## The Score

I can barely hear a sound, it's faded  
All the words you used to say  
Tried to keep me down, I'm elevated  
No more rain on this parade

I went deep inside, where monsters hide  
To free my mind, and come out alive  
Tell me when you kicked me did you ever think that I would get up

Can you hear me now so loudly?  
I'm screaming at the top of my lungs  
Can you see me now so proudly?  
Looking up at what I've become  
Can you hear me now  
Up above the crowd  
Singing whoa whoa-oh  
Can you hear me now so loudly  
Can you hear me, can you hear me now?

Tried to find the light between your shadows, but it always seemed to fade  
It took some time for me to learn to let go  
But I grew stronger from the pain

I went deep inside, where monsters hide  
To free my mind, and come out alive  
Tell me when you kicked me did you ever think that I would get up

Can you hear me now so loudly?
