The Score

In my head I hear a million conversations
I'm spinning out, don't wake me up until the end
The rivers flowing in denial I can't fake it
I'm paranoid that all my thoughts are all my friends

I got
Blood in my chest
Fight in my step
No sleep no rest
No sleep no rest
Sparks in my brain
Am I insane
Trying to light the flame
Trying to light it

All these thoughts I battle creeping up my skin, creeping up my skin
Fears they try to rattle who I am within, where do I begin
It's one of those days, my world is crashing everything looks on fire
It's one of those nights, I'm dreaming but I'm walking on a wire
All these thoughts I battle creepin up my skin, burn em from within like...
Fire
Fire

Run away, I'm going faster if I want to
On a journey, on a mission, never left
No more doubt, no more running from the half truth
I'm a fighter, lighting fires, knock em dead got
