

High As A Kite

The Screaming Jets

I'm as high as a kite, my mind sours high above the earth.
Cut me laughin with a child's delight
And as for us these kind of days go I've found worse.
See got me up as high as a kite.
I rule the earth.

You wanna touch the sky.
But I could soon fly from your sight.
Yes I could and leave you all to wonder why.
As high as I like and as far as I know
Time is the test so I dont need your blessing each day.
As high as I like and as much as I know.
Time is the test so I dont need your blessing today.
Got me so low that I can see the dirt
My mind it wallows in the gutter.
But I'll just keep my big mouth shut
And listen to every word that you utter.
Said as high as I like and as far as I know,
Time is the test so I dont need your blessing each day.
Well as high as I like and as much as I know, Time is the test
so I dont

need your blessing each day.
Dont need nothin
Yeah well as high as I like and as far as I know Time is the te
st so I

dont need your blessing each day.
Said as high as I like and as much as I know time is the test.
I'll take it as high as I like and as far as I go.
Said as high as I like and as much as I know time is the test.
So I dont need your blessing today.
