

# Stop The World

The Screaming Jets

Well I've got all these thoughts  
Turning in my head,  
I have to write it all down,  
Trying to keep my head above the water,

Stuck in a one horse town.  
I know I've got something but I can't put my finger on it.  
But everytime I think about it,  
It disappears.

Stop the world, cause this is where I get off.  
Well you can all carry on,  
But just stop the world.  
Well I can feel myself,

Tumbling and fall,  
But I can get back up on my feet,  
'Cause I got something I'd like to show you all.  
I know I've got something but I can't put my finger on it.

But everytime I think about it,  
It disappears.  
Stop the world,  
'Cause this is where I get off.

Well you can all carry on, someone please stop the world.  
So c'mon stop the world, cause this is where I get off,  
Well you can all carry on, but just stop the world.  
Stop.

Stop.
