

It's All Been a Dream

The Searchers

I knew there'd come a day
When we would have to say
Our ways must part
It's all been a dream
It's been a dream
Right from the start

There'd be a change of heart
I'd watch those tear drops start
We'd kiss and say
It's all been a dream
It's been a dream
Right from the start

For a while
Did you cry
And was your heart filled with pain
Or did you smile and find a place in your heart
Where our love remains? Woh-oh oh-oh-oh

Now I know that I was wrong
I want you back where you belong
Let's forget the past
It's all been a dream
It's been a dream
Right from the start

For a while
Did you cry
And was your heart filled with pain
Or did you smile and find a place in your heart
Where our love remains? Woh-oh oh-oh-oh

Now I know that I was wrong
I want you back where you belong
Let's forget the past
It's all been a dream
It's been a dream
Right from the start
