## The Secret Handshake

Girl I wish you weren't with him wish we could be more than just friends maybe we go out on a limb just let me love you maybe we go out late one night see if we could get it just right maybe you would give me a kiss and my song will start out like this ohhh you

You lookin oh so sweet you'll sweep me off my feet this feels like magic (like magic) I could just touch the sky and you just come out right this feels like magic (like magic) I know I'm not always cool I can act like a fool but maybe if you can give me one chance just let me love you I know I'm talking too much and acting crazy and such just got to be in your life girl just let me love you
