well here in the east
we seem to drag
just an assumption
for you to brag
in a tunnel of wrong the sermon is long

all baiting questions
form a line
that seems to happen
all the time
in a puddle of wrong the serum is strong

its space, its a dark force with a face that could destroy monarches boundries republics and me

your lucky numbers once were mine those shoes you walk in don't have a spine in an ocean of wrong the sailors sing songs

its space, its a dark force with a face that could destroy monarches boundries republics and me
