

Please Go Away

The Shirelles

Just go away
Just go away

I fell for you the moment we met
And I prayed we'd be alone like this someday
But my baby trust me, oh yeah
And I know I'm doing wrong
I want you to stay but please, go away

If he found out that we were alone
He'd be hurt more than any words can say
I need you so much oh yeah
And I've waited so long
I want you to stay but please go away

I can't be happy by hurting someone else
Some times a girl can't think of herself

Don't even kiss me when you walk out that door
If you do I might beg you to stay
I'll always love you, oh yeah
But I've got to be strong
I want you to stay but please, go away

Some times a girl can't think of herself

Don't even kiss me when you walk out that door
If you do I might beg you to stay
I'll always love you, oh yeah
But I've got to be strong
I want you to stay but please, go away

Please go away
Please go away
Get out of my life
