

# Anastasia

## The Slackers

Anastasia, oh, Anastasia  
Three mouths to feed, a mother's work is never done  
Still I can see it in your eyes  
The pain, the lies you had to hide  
What you endured, you kept it inside

He deceived you  
He would deceive you  
Your husband's left and gone  
How will you carry on  
Got no parents to turn to  
To make ends meet was up to you  
No time for tears when there's work to do

You carried on  
Through the darkness  
Your dreams denied  
No one by your side  
To help you through  
You carried on  
And raised a family  
Still found the strength  
No one else to thank  
Except for you

You're the savior  
You were the savior  
You toiled day and night  
To make things seem alright  
You worked your fingers to the bone  
To make a safe and happy home  
Behind closed doors you slept alone

You carried on  
Through the darkness  
Your dreams denied  
No one by your side  
To help you through  
You carried on  
And raised a family  
Still found the strength  
No one else to thank  
Except for you

Oh, Anastasia, Anastasia  
Forever in my heart  
You know you'll always be  
From time to time I think of you  
What a surprise if you only knew  
I'd write this song to sing for you

Oh, you carried on  
Through the darkness  
Your dreams denied  
No one by your side  
To help you through  
You carried on

You raised a family  
You found the strength  
No one else to thank  
Except for you

You carried on  
Through the darkness  
Your dreams denied  
No one by your side  
To help you through  
You carried on  
Raised a family  
You found the strength  
No one else to thank  
Except for you

You carried on  
You carried on  
Yet, you carried on  
Ooh-oh, you carried on
