

# I Don't Want to Lose You

The Smithereens

You turn to me with that look on your face  
The kind of smile I'll never replace  
But if you can't love me then I'll have to go  
But first there's something that you should know

You turn to me  
And your eyes say you want to be free  
What can I do  
When I spend my whole life lovin' you?

I don't want to lose you

Now you come around and you want me again  
Let's face it girl we just can't pretend  
We can't go back it just can't be the same  
So don't be sad there's no one to blame

You turn to me  
And your eyes are the eyes that know me  
What can I do, when I spend all my life wanting you?

I don't want to lose you

What did I do tell me what did I say that was wrong  
When will this pain leave my heart, but it takes so long

I think that someday we'll both look back on this  
We'll laugh and smile and both reminisce  
About all the good times together we've had  
But girl I know that I'll still be sad

Still I want you  
When I know it's the wrong thing to do  
Can we be here  
And still have love enough left to give?
