

Keep On Running

The Smithereens

They say I'm a fool and I'm no good for you
But you know they're wrong and that my love is true
You believe in me, I believe in me too
And our love will last, after all we've been through

No, don't listen to the things they say
You just take my hand and we'll keep on running
No more talking, time to run away
You just take my hand, we'll just keep on running

Every move I make, every thing that I do
Every breath I take, girl, I do it for you
Got nowhere to run, we can find a way home
We will leave this town, and together we'll roam

No, don't listen to the things they say
You just take my hand and we'll keep on running
No more talking, time to run away
You just take my hand, we'll just keep on running

They say I'm a fool and I'm no good for you
But we know they're wrong and that my love is true
Got nowhere to run, and we can't find a way
So we'll leave this town, and together we'll stay

No, don't listen to the things they say
You just take my hand and we'll keep on running
No more talking, time to run away
You just take my hand, we'll just keep on running
No, don't listen to the things they say
You just take my hand and we'll keep on running
No more talking, time to run away
You just take my hand, and we'll keep on running
