

Sleep the Night Away

The Smithereens

I would give anything, I would go anywhere
To see your smiling face, see your face every place
Can't say the way I feel, don't trust if it is real
Knowing you're by my side, knowing you can not hide

It's so hard to be willing and waiting in line
Hard to be everywhere all of the time
Hard when you slowly are losing your mind

Sleep the night away
Sleep the night away

Come on... come on

Just to be here with you, knowing the things you do
Seeing your smiling face, see your face every place

It's so hard to be living and waiting inside
Hard to be waiting for a one-way ride
Hard when you slowly are losing your pride

Sleep the night away
Sleep the night away

Come on... come on... come on
Come on... come on

It's so hard to be willing and waiting in line
Hard to be everyone all of the time
Hard when you slowly are losing your mind

Sleep the night away
Sleep the night away
Sleep your life away

Come on... come on... come on
Come on... come on
Hey yeah
