

# The World We Know

The Smithereens

When the fire burns out  
All that's left is ashes of a broken heart  
There's no use my friend  
In all your talk, talk, talking, when you're worlds apart

When the fire burns out  
All that's left is ashes of a broken heart  
And you left me thinking  
At last she told you when you broke apart

Broken heart, time to go, torn apart  
World we know  
Broken heart, time to go, torn apart  
World we know

She unties your hand, used to come up empty  
In the world we know  
When your time is up try to run and hide  
But there's no place to go

When the fire burns out  
All that's left is ashes of a broken heart  
When you pack your bag  
And there's nowhere to go to, learn to play the part

Broken heart, time to go, torn apart  
World we know  
Broken heart, time to go, torn apart  
World we know

World that we know  
(World that we know)  
What went so wrong?  
(It went all wrong)

World that we know  
(World that we know)  
Didn't last long

I told you, when the fire burns out  
All that's left is ashes of a broken heart  
There's no use my friend  
In all your talk, talk, talking, when you're worlds apart

When the fire burns out  
All that's left is ashes of a broken heart  
And you left me thinking  
At last she told you when you broke apart

Broken heart, time to go, torn apart  
World we know  
Broken heart, time to go, torn apart  
World we know

Broken heart, time to go, torn apart  
World we know  
Broken heart, time to go, torn apart

World we know

Broken heart, time to go, torn apart  
World we know  
Broken heart, time to go, torn apart  
World we know
