

Black Snake Diamond Rock

The Soft Boys

Black snake diamond role
Twists away across the floor
Trails away like mercury
Have you ever seen her?
Been right in between her
She's a goddess
You'll pay double
Just to be a candlestick
Black snake diamond rock
Cut it hard and watch it shine
Doing it with confidence
Have you seen her squeeze a bulb?
Singing like a window pane
glass she broke her voice
Yes
She's not young and she's not old
She's a woman every time
Got a penthouse full of dwarfs
Lord, I wish that she was mine
Well, maybe she is
Rock around the fire escape
Boogie with a question mark
Dancing with a rubber snake
Going down the Milton keenes?
Looking for my destiny, ha
Feeling young and dignified
In a velvet guillotine
Yes
Black snake diamond rock
Hungry fingers in a smock
Sucking on a cloaker's top?
Tulips blossom in a shop
Umm
Tulips from Amsterdam
Tulips from Amsterdam
Joined together at the sides
Black snake diamond role
Gonna make it with my bride
Gonna be a burly night
Well I hope and feel alright
Putting on a special smell
Leaves me in exquisite hell
Tulips from Amsterdam
Tulips from Amsterdam
Tulips
