

Walking

The Soundlovers

Walking on the street
I think about your dream
No matter what you said
'Cause everything I want
Is just to live today

Don't tell me what is right
Don't tell me what is wrong
Open your wings and fly
And stand here by my side
But let me live this love

Walking on the sun take me there
I wanna hear your voice in the air
Let me see your hands when you dance
Let me hear your song all night long

Walking on this land till the end
I wanna hear your voice through the sand
Let me see you hands when you dance
Let me hear your song all night long
