

## Dim The Lights

### The Sounds

I take what I want when I want it  
I say I take what I need when I need it  
The pressure is on and I feel it  
You know I say what I want and I mean it

It's hard to go back once you've moved on  
Cos you can never return to what it once was  
The world is cold and deceiving  
But you give me something to believe in  
Dim the lights lock the door  
Baby this is what we keep secrets for

Turn me on don't let go  
This is what I've been searching for  
Close my eyes count to ten  
I hope I never see that face again

I remember the strangest feeling  
Dim the lights lock the door  
I remember the strangest feeling  
Dim the lights lock the door

I turned off the phone  
So just leave me alone  
I need some time to be another  
I don't want you to see  
What goes on in me  
Cos I am my own worst enemy  
Dim the lights lock the door  
And hit me like you've never hit me before

I take what I want  
And I mean what I say  
I take what I want  
And I mean what I say  
Turn me on don't let go  
This is what I've been searching for  
Close my eyes count to ten  
I hope I never see that face again

I remember the strangest feeling  
Dim the lights lock the door  
I remember the strangest feeling  
This is what we keep secrets for
