

With His New Face On

The Spencer Davis Group

With his new face on today
He knows things will go his way
Trying things again
Things that never end for him

Put your new face on, yesterday has gone
You've got something new to hold on to
Put your dreams way, you're stepping out today
Nowhere you can find tomorrow

With his new face on today
He knows things will go his way
Trying things again
Things that never end for him

Face the crowd today, let them know you're here to stay
You'll find yourself much clearer
With the things you've done, you didn't have much fun
It's all changing for the better

With his new face on today
He knows things will go his way
Trying things again
Things that never end for him

Put your new face on, yesterday has gone
You've got something new to hold on to
Put your dreams way, you're stepping out today
Nowhere you can find tomorrow
