Could You Love Me One More Time

The Stanley Brothers

Could you love me one more time With a love that really is mine I've waited so long they say you've gone wrong Have I lost you forever this time

We'll go down by the river I'll ask you one last time As the night breezes blow I'll whisper so low Could you love me one more time

Do you think that I'd believe This talk that's going around I've heard lots of things that somehow seem strange But darling I wouldn't throw you down

I know that you're my weakness I know you'll be my downfall I'm not sorry we met and I'll never forget That I gave you my heart soul and all
