

How Do You Move A Mountain

The Staple Singers

People build mountains between them
Too high to crumble and fall
Now you, you can't see him
And he can't see you
And we don't see each other at all

How do you move a mountain
And how do you push it aside
If it's made out of stone, yeah
Then you can tear, you can tear it down
But what about a mountain of pride

People build those mountains between them
Each day, each day we keep banging the stones
Now it's time we knew that all the harm we do
Lord how our mountain has grown

How do you move a mountain
Somebody tell me
How do you push it aside
If it's made out of stone
You can tear it down
But what about a mountain
What about a mountain
What about a mountain of pride
