

# I Want to Thank You

The Staple Singers

Cross my heart, and I don't hope to die  
No more tears, because I don't have to cry  
But this morning, I can see there is a brighter day

We become stronger because of sacrifice  
Inspiration is what you gave to my life  
It's true, the love of you, spiritual affection, lifelong protection  
Jesus I just want to thank you, thank you

It's been fun, and all the things we've done  
Through his footsteps, all the work has been done  
Funky music will never destroy the faith and love we enjoy

Bless my soul! That it's not out of control  
Makes it easy (make it easy) to release the world at its hold  
Funky city, oh ain't it pretty, funky and witty, workin' for the boss, we carry the cross  
Jesus I just want to thank you

(Give us this day)  
He'll show you the way  
Jesus is love, Jesus is love

Oh everybody nappin', slappin' hands and rappin'  
Keep trying to pull through  
But for the love and protection  
Where is the action, who will show you what to do?

And no longer and all because of you  
Will we crawl on the back road of no can do  
From now on, we travel the highway of sweet rejoice  
We become stronger because of sacrifice  
Inspiration is what you gave to my life

It's true, the love for you, spiritual affection, lifelong protection  
Jesus I just want to thank you, thank you

Give us this day  
He'll show you the way  
Jesus is love, Jesus is love

It makes it kinda nice, with everyday life with these days seem kinda down  
Helps you make, make a choice if you listen to my voice  
You can find faith  
Shop around, shop around

No longer, all because of you  
Shall we crawl on the back road of no can do  
From now on we travel the highway of sweet rejoice

We become stronger because of sacrifice  
Inspiration is what you gave to my life  
It's true, the love for you, spiritual affection, lifelong protection  
(See the pretty city, oh ain't it pretty, funky and witty, workin' for the boss, we carry the cross, what do you do, Jesus is true  
Spiritual affection, lifelong protection, give us this day)
