

All My Life

The Staves

Oh, my love
Never been so here before
Never known the way before
Never seen it in all my law

Oh, my life
Never seen the way in the light
Never known the heaven in night
Or the sound of the Northern Lights

Oh, my song
Never heard a line unsung
See ourselves coming undone
Never seen the light
Never seen, never seen the light

Tell me that you want me
Deal it on my side
I can feel it haunt me
Heaven on their minds

And I know, I know
I know, I know

Oh my life
Never been so here in my love
Never been so scared of my love
Heaven knows, never in love
Ever in love
Never in love

Tell me that you want me
Deal it on my side
I can feel it haunt me
Heaven on their minds
I know, I know
I know, I know
