

# Appetite

## The Staves

I've got an appetite  
Keeps me up in the night  
I can never leave alone  
(I can never leave alone)

When will we learn again  
Here we are still pretending  
Oh, we'll never say goodbye again

I've got an appetite  
(I've got an appetite)  
Keeps me up in the night  
(Tell me all the times you prayed)  
I can never leave alone

When will we learn again  
(When will we learn again)  
Here we are still pretending  
Oh, we'll never say goodbye again

Time will take and I will wait  
Oh, but you're my oldest friend

I've got an appetite  
(Hold yourself together)  
Keeps me up in the night  
(Tell me all)  
I can never leave alone

Time will take  
And I will wait  
Tell me all the times you prayed  
(Tell me all the times you prayed)
