

## Next Year, Next Time

The Staves

So we marked it out as something we would try  
Next year, next time  
And we marked it out as something we would try  
Next year, next time

So we marked it out as something we would try  
Next year, next time  
And we marked it out as something we would try  
Next year, next time

Call it off (And call it off and)  
This is something we must try  
Call it off (And call it off and)  
Maybe next year, maybe next time, we can try

We can wait at the borderline  
All night  
We can try to explain it to ourselves  
Hmm, are we all to decide?  
We're gonna sit, sit tight  
And maybe we can get it right  
When it comes around  
Hmm, oh, next time

Call it off (And call it off and)  
This is something we must try  
Call it off (And call it off and)  
Maybe next year, maybe next time, we can try

So we marked it out as something we would try  
Next year, next time  
And we marked it out as something we would try  
Next year, next time
