

Sleeping in a Car

The Staves

Sleeping in a car
Living out a case
Putting on a face
Sneaking out at night
I'll call it on the phone
Tell you I'm alright
But I'm not
And I'm alone

Know I love you
All I can
Know I love you
All I can

Sleeping in a car
Living out a case
I want to see your face
Hold on now
I'll have one more smoke
Hanging out the window
Before I go

Know I love you
All I can
Know I love you
All I can

I feel it again
It's bigger than us
It takes me again
And its never enough
Slipping out of time and singing
Like a silver knife inside you
Never, never enough

Know I love you
All I can
Know I love you
All I can

Slipping out of time and singing like a silver knife
I love you
