

Say you will
Be my little light in the dark
When I want to see you
For a night owl
Guess I don't do too bad
You're my only one

I wish I coulda seen you
I wish I coulda seen you

And I'm laid out
I can hear your keys in the door
I wanna believe it
Kitchen wishes
I really wanna be fine
So let me down easy

Is it over? Is it real?
Did it hurt? Did you feel?
I don't talk, I can't sing
Any line, anything

All the love you have
Hidden in the dark
(And I feel it all, and I feel it all)
Waiting for a moment
Waiting for a spark

In a higher love, I'll love you now

Trying to see you
Trying to tell you that I'm
Living in your home now
And holding on
I love your hair
I love your heart, I need you there

Did it hurt? Did you feel?
Is it over? Is it real?
Can I sleep where you lay?
Hear you sing, hear you say

All the love you have
Hidden in the dark
(And I feel it all, and I feel it all)
Waiting for a moment
Waiting for a spark

Higher love, I'll love you now
In a higher love, I'll love you now

Is it over? Is it real?
Did it hurt? Did you feel?
I don't talk, I can't sing (Higher love)
Any line, anything
