

# If You Can't Be Good Be Gone

The SteelDrivers

If you can't be good be gone  
don't tell my love it don't belong  
you got no right to do me wrong  
if you can't be good be gone

you say one thing and mean another  
now it's all comin' back on you  
I trusted your lies for the last time  
what makes you do the things you do

If you can't be good be gone  
don't tell my love it don't belong  
you got no right to do me wrong  
if you can't be good be gone

if you don't wanna love me darlin'  
i dont know what you want me for  
take the ring off of your finger  
it don't mean nothin' anymore

If you can't be good be gone  
don't tell my love it don't belong  
you got no right to do me wrong  
if you can't be good be gone

If you can't be good be gone  
don't tell my love it don't belong  
you got no right to do me wrong  
if you can't be good be gone

if you can't be good be gone
