

No Anaesthesia

The Stone

A white bodybuilding man looking for a delicate boy
Who wants to get submitted and be treated as a cheap toy
Looking for a real adventure? I'm all that boy needs
I got rubberboots, leatherwhip, everything! Balls full of seeds

C'mon fear me boy, taste my fire,
I'm gonna give it to you with no anaesthesia

You read this in one of those magazines
And begin to feel really tight in your jeans
At once you know this one is for you
Your chance to be loved and show your love too

Get down, down on your knees
Make it slippery with grease
This dreams been going on every night
You're sure he loves you 'cos you got it so tight

How do you want it?
No anaesthesia
He's the dentist, you are a patient in pain
No anaesthesia
You're a special client so he locks the door
Please dear doc, drill my hole with
No anaesthesia
Let's see what you can take 'cos he's no fake

Obey what he says!
Take off your clothes and he'll tie you to the floor
He'll give you a lesson that
You couldn't have dreamed of before

Fear what he says!
Cry you're hurt, beg mercy, yell your skin is burning
For him this is just a start, wait 'till
You see his little dog
