

Sweet Dreams

The Stone

Normal guy living normal life
Boring job, commanding wife
You're free only in your dreams
Quite weird scenes
You dream of something real raw
Flesh and blood, you want more
Absurd violence is what you wanna see
Exterminator is what you'd like to be

You maim all, cut their throats
In blood your battleship floats
Absurd violence - absurd violence is what you wanna see
Exterminator is what you'd like to be

Good night - close your little eyes
Sleep tight - dream of something nice
Don't let the bed bugs bite
[Repeat verse]

Your wife sleeps next to you
But she don't know what you're going through
Killer - nice, raper - sweet
In dreams you don't have to be neat

Your dirtiest dreams about discipline
You wanna smell the burning skin
You wanna woman with swollen lips
And teach her with your whips
Torture really turns you on
Best way to have a hard on
Bloody bottocks, beaten bitch
This channel you wouldn't switch

Good night - close your little eyes
Sleep tight - dream of something nice
Don't let the bed bugs bite!
[Repeat verse]
