

# White Worms

## The Stone

We're mean, totally out of control  
That's the way it gotta be  
We're dirt, worse than nuclear waste  
Teaching kids the way down  
Messages, evil lyrics put on a spell  
Hungry sound, tempting your children to fall

We seduce kids into crimes, the good won't get caught  
We lie, present immoral life, colours are hidden to the top  
Nightmares, we'll make the worst one come true  
Wet dreams, kids will sink in their beds

Slimy little bastards, fomenting false message  
Spoiling this generation, we'd deserve to be punished  
We're White Worms, biting your skin  
Digging holes in your flesh  
We're eating our way into your kids' brain

Fatal life is now to be served  
Mortal man shouldn't taste the fruits of life  
Cos they're full of  
White Worms

Our noise paralyses their senses  
Causes damage in the brain  
Our fans, they can't be saved  
They've failed in their lives  
Glassy eyes, see us distorted but real  
Easy to lead, violence is the answer to all needs

Slimy little bastards, fomenting false message  
Spoiling this generation, we'd deserve to be punished  
We're White Worms, biting your skin  
Digging holes in your flesh  
We're eating our way into your kids' brain

Fatal life is now to be served  
Mortal man shouldn't taste the fruits of life

Cos they're full of  
White Worms
