

# Cool

The Struts

You fell into the room  
Flaunting your reflections  
To get up my spine with a friend of mine  
You're craving my attention  
I should've gone home, but  
I couldn't help myself  
If you wanna seem like a drama queen  
And I could just help

If you want to  
Go there, so can I  
Give you just a  
Taste of what it's like

Baby, that's coo-, -ool, -ool  
Coo-, -ool, -ool  
I could play that game, too  
Baby, that's coo-, -ool, -ool  
Coo-, -ool, -ool  
I could play that game, too  
I can baby, yeah

You always play the way  
To bring my blood to boil  
Now I'm over it, couldn't give a shit  
It's your own night to spoil

If you want to  
Go there, so can I  
Give you just a  
Taste of what it's like

Baby, that's coo-, -ool, -ool  
Coo-, -ool, -ool  
I could play that game, too  
Baby, that's coo-, -ool, -ool  
Coo-, -ool, -ool  
I could play that game, too  
You know baby, I'm fine  
Keeping this up all night  
I'll tell you, baby, you know it's cool  
I could play that game, too, ooh  
Break it down, baby

Doesn't take much brains  
To see what you were doing  
Then again, you were never really that bright  
In men that you were pursuing  
Don't underestimate  
The power of our connection  
'Cause you still feel it when you turn your head  
And look in my direction

Baby, that's coo-, -ool, -ool  
Coo-, -ool, -ool  
I could play that game, too  
Baby, that's coo-, -ool, -ool

Coo-, -ool, -ool  
I could play that game, too  
You know baby, I'm fine  
Keeping this up all night  
And I'll tell you right now, baby, it's cool  
I could play that game, too

I'm telling you, baby, we shoulda gone home  
When you chucked your phone into your glass  
Are you making up for losing me?  
Or what you lack in class?  
Can you again?  
That's good  
Okay, I think we're done
