

I Just Know

The Struts

Stab your knife into my back
Now I know what you were getting at
I know (I just know, I just know)
You're a shot of turning [?]
It's plain to see
Saying that you're something but you're nothing to me
I know (I just know, I just know)
I just know (I just know)
Oh I know (I just know)
I just know (I just know)
Oh I know (I just know)

Play my tunes on the forty five
Kicking me down
Cause I was already alive
I know (I just know, I just know)
You can't say, "I won't rock your world"
You don't know if I'm a boy or a girl
I know (I just know, I just know)
I just know (I just know)
Ooh I know (I just know)
I just know (I just know)
Oh I know (I just know)

Sweating up in jealousy
But it won't be long 'til you're begging to me
I know (I just know, I just know)
Stop, now
You're out of control
Don't you know it's only rock 'n roll
I know (I just know, I just know)
I just know (I just know)
I just know (I just know)
Oh I know (I just know)
C'mon baby I know (I just know)

I just know I'm winning
I know
